

COMMUNITY PARTNERSHIPS

Our ability to open a free pet food pantry and provide essential support to thousands of pets stems from meaningful partnerships with Chicken Soup for the Soul, Chewy, PetSmart and Target -- all companies committed to making a positive impact. These collaborations have allowed us to extend our reach and create a significant, community-driven initiative.

Thanks to our partnerships, we've distributed over 20,000 pounds of pet food through our free pet food pantry. This not only addresses the immediate needs of pets but also reinforces our belief that no pet should go hungry due to financial constraints.

Our free pet food pantry is intentionally designed to have no geographical borders. We are dedicated to serving anyone in need, ensuring that pet owners, regardless of their location, have access to the support they require. This inclusive approach aligns with our mission to create a compassionate and supportive community for both pets and their owners.

The success of our free pet food pantry exemplifies the positive outcomes that arise when organizations with shared values come together. We are grateful for our partnerships and look forward to continuing our collaborative efforts to make a lasting impact on the well-being of pets and their families.
