Active Fosters

Prior to 2022 we did not have any active volunteers or fosters. Towards the middle of 2022 we started a new volunteer and foster program from the ground up.

In 2023 our Volunteer and Foster Coordinator moved mountains in order to better serve the animals in our care.

Among some of the changes in 2023 were starting group/corporate volunteer events, hosting volunteer orientations, creating a group of fosters for bottle babies, medical fosters and recruiting dedicated volunteers to help at the shelter. We have also started a education movement, geared towards reaching our school-aged children and teaching them about owning pets, and partnering with other organizations to host presentations on how they can be better pet advocates.
